S GEPs SERVICES

Maintenance | Inspection | Diagnosis | Revamping | Spare Parts

OUR SERVICES

With its over 30 years long experience, and relying on a new dynamic since 2013, GEPS Services has positioned itself as one of the main service providers for existing equipment: all-branded vessels and process installations made of stainless steel.

We work in following areas: pharmaceutical industry, cosmetics, chemicals, food and dairy sectors, in France and abroad.

Our services will enable you to reach following targets:

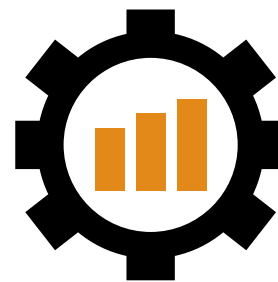

SAFETY

Of goods,
staff and environment

QUALITY

Reliability and quality
optimisation of the products
you manufacture

PRODUCTIVITY

Improvement of
your production
to generate productivity gains
